Our Customers

Our Delivery

Our Company

Locor, is among the first inkjet printer factories since 2005 in China before US NOVAJET. To better serve our global customers, we set up branch company, Hongcai Digital Technology Co., LTD, with our Factory Direct Supply brands Macroprint and Mimage.

In the past 5 years, Hongcai have gained great popularity in domestic market with stable performance and cost effective features for online business, and now we hope these 2 brands will serve global customers for a better printing business !

Looking forward to have long term business with you !
